ABOUT US

WongoX, has been focusing on the manufacture of consumer electronic products since 2015. True wireless earbuds, bluetooth earphones, headphones, Qi wireless chargers for desktop&car, and other products in trend, beyond innovation, delight your life!

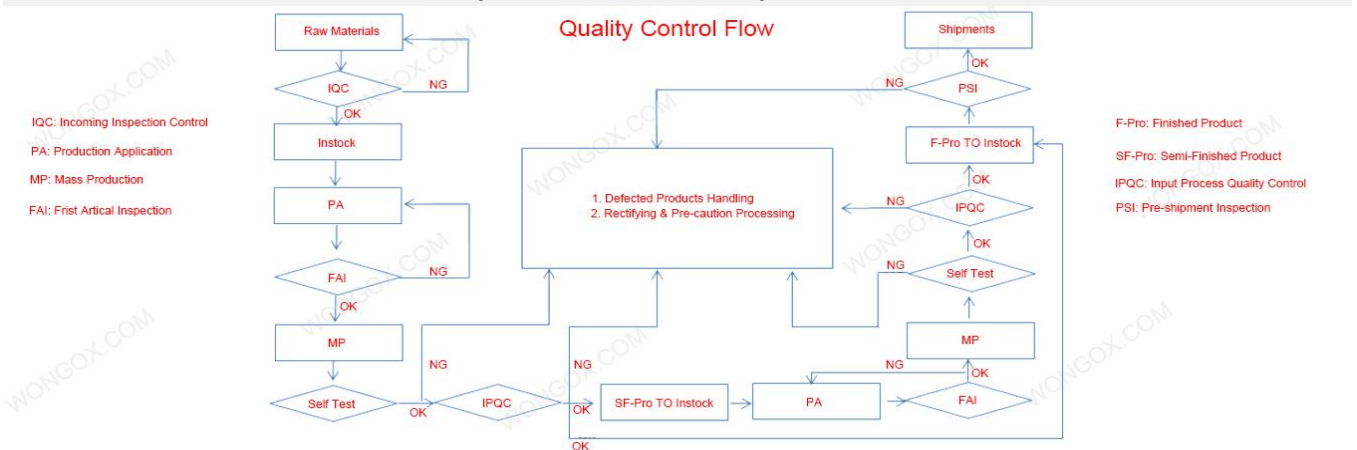

Our mission is to bring quality innovative products and customized solutions for clients worldwide, grow together with long-term, win-win situation. We constantly pursuit for reliable and practical spirit in our business.

We have professional testing equipments, strict quality control system. OEM&ODM with 4 engineers involved in the R&D department, 6 QC stuffs, 3 production line with around 80 skilled workers to ensure the quality. Though we're not a big factory, we are serious in what we are doing, the engineers in R&D team has over 10 years of experience in design, prototyping, integration and testing products that are high quality and truly innovative for international markets.

We also add some interesting items to our list from brother factories, and sometimes help some overseas partners to source other products as well.

Some items, we have some neutral version in stock, and small MOQ for trial order accepted. You choose us as supplier, we do to ensure the successful, win-win buying experience for you.

Quality is EVERYTHING, and speaks for ITSELF
